Please tick your chosen option

Option 1 Default Investment Option

The PRSA Default Investment Strategy is an investment strategy that changes over time. During the first phase known as the High Growth Phase, the fund initially invests in a high growth fund. At 20 years to go to retirement the Strategy gradually shifts assets to the Growth fund until at eleven years to go to retirement when 100% of assets are in the Growth fund. The Strategy then brings a lower risk fund into play over a 5 year period. This is the Consolidation Phase. During the final 6 years before retirement the Strategy will move investments into funds that most closely match your expected retirements benefits. As retirement plans and expected retirement dates can change you should continue to discuss your pension with your financial advisor to make sure the strategy remains suitable. For more details of the strategy please see the Personal Lifestyle Strategy for PRSA guide on www.irishlifecorporatebusiness.ie.

Option 2 **One or more of the funds listed here**

If you choose this option, you must tell us what percentage you wish to invest in each fund, subject to a maximum of 5 funds. You can invest 100% in one fund or spread it over a number of funds but the total must equal 100%.
